

Identifying Communities and Creating Access

Shanada Monestime, PharmD, BCOP
Director, Community Engaged Research

Intentional framework to increase accessibility of resources

PATIENT SUPPORT SERVICES

- Helpline
- Phone buddy system
- Educational materials

CLINICAL TRIALS

- Connect patients to clinical trials
- Analyze biomarker testing reports

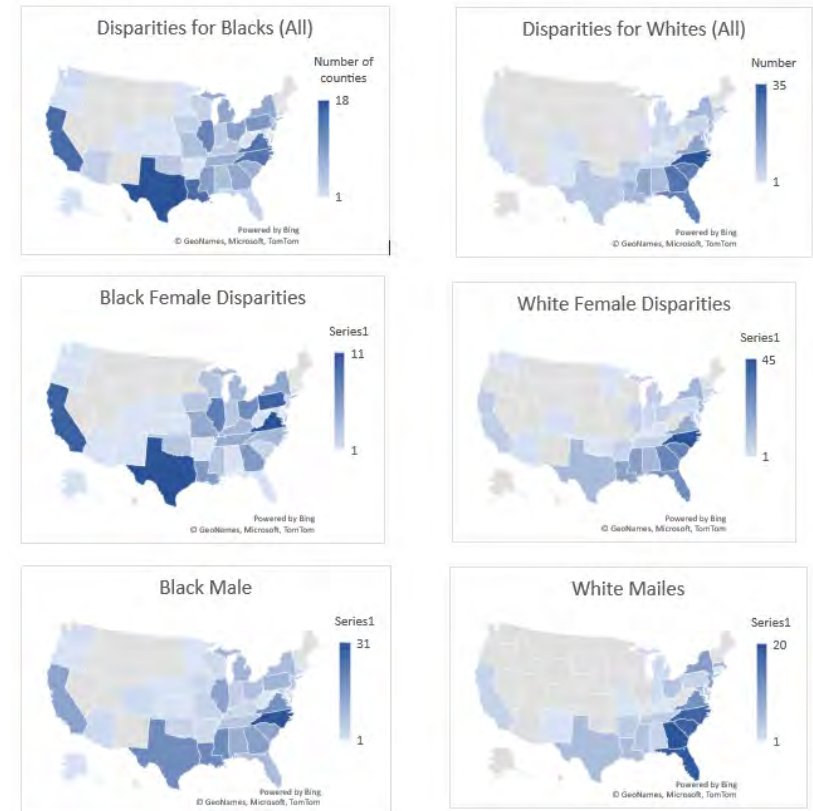

SPANISH EDUCATION MATERIALS

- Video library of lung cancer education materials in Spanish
- Continuous modifications via focus group

Heat maps and geospatial analysis to identify areas with high disparities in lung cancer incidence and mortality between NHW and NHB

READY-LUNG Initiative in Broward County

National lung cancer incidence rate for Blacks

52

Phase I: Interviewed key stakeholders, patients, and caregivers on readiness to address lung cancer disparities

Phase II: Conducted in-person meetings to collectively develop interventions to mitigate disparities

Phase III: Implement and evaluated community-led intervention (report end of 2024)

Broward County Neighborhoods	Black Incidence
Dania Beach	72.42
Hallandale	74.54
Oakland Park	54.12
West Park City	57.02
