The **Capture the Moment Cancer Education Symposium** will feature an internationally renowned group of speakers that have been organized to accomplish two main goals.

The first goal is to provide comprehensive patient friendly information on the diagnosis and treatment of cancer.

The second goal is to provide attendees with information on many shared issues facing cancer patients, family members and caregivers.

This symposium will address many unmet needs that patients and their loved ones have, but are rarely discussed in the exam room. This information is crucial for people who are in active treatment, recovering, or have been cured.
