

Florida Society of Clinical Oncology 100% Membership Partners

FLASCO Mission

FLASCO is committed to the mission of facilitating and promoting multidisciplinary efforts to improve patient care in Florida by:

- Fostering access to quality cancer care to the citizens of Florida
- Assisting cancer practitioners in providing the most cost-effective quality care for their patients
- Acting as an advocate for Florida's cancer patients and their families; and
- Coordinating the dissemination of information and providing an opportunity for oncologists, physicians and other healthcare professionals to network and exchange information.

Membership Partners

As of September 1, 2018, FLASCO has a distinguished network of over 3,100 oncology healthcare providers who support FLASCO's very important mission and its recognition as *"The Voice of Oncology in Florida."*

FLASCO's 100% Member Partnerships are a key component to this strong position. These mutually beneficial partnerships also increase engagements among physicians, clinicians and administration for FLASCO and provide important benefits to members at these participating private practices, hospitals and academic centers.

How It Works

A FLASCO 100% Membership Partner is defined as a community oncology practice, cancer center, hospital or academic center wherein all medical oncologists are FLASCO members. Radiation oncologists, surgical oncologists, GYN oncologists, pharmacists, pathologists and other allied health care providers, including administrators, are encouraged to also become members and there are benefits to all members of FLASCO. A pivotal part of this partnership is a point of contact within the practice that will work with FLASCO to keep membership records up-to-date.

Membership Partner Benefits

- Opportunity to have conferences and programs featured in the weekly FLASCO Flash –e-newsletter and on FLASCO website: www.FLASCO.org
- Opportunity to have FLASCO co-sponsor events
